

Hello my IATSE 873 Family,

My name is Andrea Brown and I am running for Delegate.

I have been a makeup member since 2016 and am currently Co-Chair of the IA873 Makeup Committee. I have been an active member participating in general membership meetings, learning the intricacies of our constitution, and understanding how the union works.

Some of the contributions I have made since taking a role on the makeup committee include researching and organizing diversity training specific to our department and I have helped update and facilitate our trade test.

Listening and problem solving are talents of mine. I have empathy for all and enjoy working together at our best. I understand people dynamics and like to consider everyone's point of view. I feel we need to try to understand each other's departments with how they work to fully comprehend how we can further support and build each other up.

It's important for me to encourage and implement Allyship and Education within our membership. I feel this is what will help maintain the standard of excellency our industry expects from 873 and will help our members feel supported.

I hope to attend the Delegate Convention in 2023 as it is in my hometown Victoria BC. Since I moved to Toronto 15 years ago, I have been searching for a way to merge my Toronto film career and connect to the film community on Vancouver Island. I hope that this is the opportunity where I can do that.

I hope to represent not only the Makeup Department and fellow Creative Departments but also bridge communication for the Technical Departments as well.

Thank you for your consideration.

Andrea Brown
IA873 Makeup Member
