

Fiona Andrew
Platform

A proud member of Local 873 for over twenty-five years, I have worked as a Prop Master, Set Decorator and Buyer. I have served one term on the Props, Set Decoration and Greens Committee, two terms on the Women's Committee and one term as a Convention Delegate. At this point in my life and career I have the time to devote to the membership through service on the Executive Board. I have wisdom, experience and a long track record.

I believe in and promote mentorship, education and diversity. Throughout my time in this local, I have attended general membership meetings regularly. I strive to lead by example and have mentored a number of young people in my category. I am a good listener and my communication skills include public speaking. I have experience and training in consensus building. I stand up for others. I think that we should be pushing the television rates up. If elected I will remain approachable.

In my work with the Women's Committee of 873 I pioneered the Meet and Greet Events: holding one well attended in person event at William F Whites new studio, and then two successful webinar events that presented the very well received Rachel Stanley and The Art of Making your Deal. Other initiatives include the Women's Committee Survey to determine education and programming as well as lobbying for the addition of an HR person in the office to help the membership.

It is my sincere hope that you will all take the time to educate yourselves and vote in this election. Be a part of the process. Be engaged in your future. Please give me your trust and support as your Executive Board member and Convention Delegate.
