### ➤ WHY AM I RUNNING?

The means to navigate how our Local runs things exists both within our Local but also the International AND our affiliates.

As a Board Member and/or Delegate I will strive to listen to, and HEAR the membership voices - ALL the beautifully different voices that we have. I will dedicate my time to attend board meetings, Union events, conventions, seminars and immerse myself into anything I can to get the most information and tools possible to support our great Union.

Let's make decisions for us TOGETHER with the best available information and with communication, discussion and motions for change.

### ➤ HEALTH & SAFETY

- More thorough Risk Assessments on locations
- Encouraging membership to engage in safety training -like JHSC
- Introducing programs like Mental Health First Aid, and providing a clearer and easier to navigate system to access the help our Union provides, and the programs from our affiliates.
- A stronger forward effort, especially on a above the line level to promote a healthier work/life balance
- Everyone that goes to work, should go home from work, unharmed - honouring and protecting a simple motto - - WORK. BE SAFE. GO HOME. Let's make sure that happens together!

### ➤ TRAINING

- Continuing to advance and fortify internal and external training with more hands on courses, online course material and seminars and courses.

### ➤ COMMUNICATION

- As a Union, communication is CRITICAL. Exploring new ways to reach out to the membership, engage members more, and make getting information an accessible priority to our members.
