

Hello Union Members of 873

I have accepted the nomination for Executive Board and I want to say thank-you to all of you that have shown this support for my nomination to serve you.

Q: I've been asked what is my platform.

A : I don't have one !

Q: Why not ?

A: On the Executive Board I have only 1 vote but it is this vote I intend to use wisely by making the difference with well informed information from the members on the floor.

Q: What does this Union mean to you?

A: A Union means solidarity to me like a family. We work hard to accomplish great things and protect each other to improve all our lives.

I've been politically involved since 2008 and have been giving back supporting dozens of members over the years, undoing the wrong against members. Showing support in trials to overturn executive board decisions that were not conducive or inclusive of how the membership felt. I've served on two committees; a union delegate, and put motions forward for the betterment of this Union that have been adopted with a majority vote.

I will always be transparent with you on how I voted. I will lead and serve us down the right path with the majority will and concerns of this membership.

I will always support the member of this Union that I'm so fortunate to work with , and to be a part of the greatest part time career of all time.

I will follow the four corners of all pages of our constitution bylaws and collective agreement.

This Union needs some fresh idea's and a true voice for the membership including the ones who until now have been afraid to let their voice be know. It needs a family member to hear the WILL of the majority of membership. My promise is to listen and hear your voices to create a stronger Home for us all. This is my purpose to serve YOU the members and is why I'm running. You deserve a servant leader who will put you and your families interest first.

Our union is not perfect , but we are family, and every member should be heard and respected.

Have a Great Day  
My Union Family,  
Glenn
