History

I have been working in film and television as a Script Supervisor for 10 years. However, my history in the industry goes much further back. As a child, I spent the majority of my upbringing on sets as a performer. I also worked with *The Canadian Society of Cinematographers* for 15 years. While at the CSC, I helped facilitate workshops, stage manage, and assistant produce their annual awards gala. With my collective experience as a performer, event organizer, and script supervisor I have developed a unique behind-the-scenes perspective into the film industry as a whole.

I.A.T.S.E. Involvement

Like almost everything in my life, when I become a part of something - I throw myself into it completely. I.A.T.S.E. 873 was no different. After I was sworn in, I joined the Young Workers Committee and shortly after, was appointed to the Constitution and By-Law Reform Committee. Together my peers and I developed a multi-phase reform process to introduce gender-neutral language, reflect more modern practices and mirror the Internationals Constitutions and By-Laws.
