

Hello thank you for taking a moment to read this statement that supports my abilities and credibility to be elected as one of the Financial Trustees of our great local.

I have been a continuous member in the Scenic department of our local since 1988.

In 1991 I was hired as Industrial Designer for Randomlane Industries, Quickly I moved to Plant Manager and then Vice President of Manufacturing where I received training in these areas of finance, Cash Flow Statements, Year End Financial Reports and Corporate procedures.

After the Comapany closed manufacturing operations I returned to IATSE 873 and began another Chapter.

In the past dozen years I have served two term in my departments committee, attended numerous general meetings often asking the acting treasure questions on the financial reports.

The Trustees position is to review the audited statements discuss and offer clear and trusted comments on the Financial position of our local.

I believe Transparency is fact and fact leads to trust and as such and in accordance to my role, I be available to you. Due to our past prudent Trustees we have an excellent record of performance and I pledge to continue this if I am elected to this board of Trustees.

Your Brother, Steve Sam Cohen
